

Used Floor Cleaning Equipment Buyer's Checklist

Is Certified Pre-Owned Equipment the Right Fit for Your Facility?

Use this quick checklist to evaluate whether used industrial floor cleaning equipment from Haaker Total Clean aligns with your operational goals, budget, and maintenance capabilities.

Facility & Application Needs

- ☐ Do you clean large square footage regularly (e.g., warehouses, arenas, schools)?
- ☐ Are you running daily or frequent cleaning schedules that require reliable uptime?
- ☐ Do you have multiple facility types (indoor, outdoor, hard floor, carpeted) that need different equipment?

Budget Considerations

- ☐ Do you want to reduce capital expenses without sacrificing performance?
- ☐ Are you seeking to preserve budget for other operational investments (e.g., staffing, supplies)?
- ☐ Would a 40–60% cost savings compared to new equipment help you meet financial goals?

Equipment Lifecycle Fit

- ☐ Are you open to using machines with <2,000 service hours that have been fully refurbished?
- ☐ Do you understand the benefits of depreciated asset investment (less initial value loss)?
- ☐ Do you prefer immediate availability over waiting for new equipment lead times?

Maintenance & Support Readiness

- ☐ Is ongoing support like Mobile Maintenance Units or onsite training valuable to your team?
- ☐ Do you have access to trained technicians or want support from one of ours?
- ☐ Is a warranty on used equipment important to you for peace of mind?

✓ If you checked 6 or more boxes...

Your facility is a strong candidate for Certified Pre-Owned Equipment from Haaker Total Clean.
